

EdgeLit Safety Signs

The “New” low voltage FE LED fire exit sign is energy efficient and durable. With a minimum life of 60,000 hrs, an automatic battery backup ensures continuous illumination in the event of power failure.

This unique illuminated emergency fire exit sign offers all the benefits of LED technology and is available in two standard sizes (480mm x 160mm or 300mm x 100mm) or can be bespoke. The sign comprises a clear acrylic panel (10mm or 8mm thick accordingly) with laser engraved and infilled graphics. The panels feature a quality silver anodised aluminium mounting system of a slender modern design. ‘Signslot’ and ‘Signblock’ can be ceiling or wall mounted.

This high quality emergency fire exit sign complies with Health & Safety (Safety Signs and Signals) regulations 1996 and comes complete with a battery back-up unit to keep the sign illuminated for over 3 hours during a power failure. The sign requires no maintenance and consumes 80% less power compared to similar T2 systems.

The FE LED fire exit sign is a new addition to Complete Sign range of precision, engineered components for the display of signs and media.
